

AGNIHOTRI COLLEGE OF PHARMACY

Alumni Speak Working In Foreign

Ms. Vishruti Makani

**Postdoctoral Researcher University of Pennsylvania
& Scientist KBI Biopharma,USA.**

2007 Passed out

It's a human tendency that when things go far away from us, we begin valuing them all the more!! Hence, a word of gratitude for allowing me to pen down, my 'Alumni Speak'.

2003-07 has been a rollercoaster ride, from being tagged the most notorious batch, to being loved the most, we evolved!! Huge respect & gratitude to our Principal ma'am, Faculties & Non-teaching Staff for always guiding us. One thing I'd like to tell my juniors is, always be at par & updated with the daily happenings/news about the Pharma Industry, whether through journals or electronically. Never hesitate to approach our dear Professors for any help required; they're our backbone! Always know that whatever they do is definitely for our good. Believe me, once you place your trust in them, you'll have the best bonding a Professor & Student can ever have, which you'll cherish forever. Lastly, let's get together & make Pharmacy a much more respectable Profession by working hard in the correct path.

Mr. Dhruvad Kumar Patel

Pharmacy Manager Walmart, Toronto,Canada

2007 Passed out

It was 2007 when i passed my B-Pharmacy and even after 15 years memories are still fresh. This institution has imbibed values of discipline, creativity and zeal to accomplish what you want. Great teachers and support staff. Although college was new that time, the passion to excel and taking it to epitome of academic excellence from Teachers made it what it is today. Not to forget that this institution has given me best buddies for life.

My best wishes and regards to every Guru who touched and shaped my life in some way or the other.

Proud ACPian.....

Mr. Krunal Patel

Quality Control Chemist (QC Chemist)

at Aurolife Pharma USA

2011 Passed out

I was lucky to be a part of ACP. The time spent here has undoubtedly given me memories for a lifetime. Initially, it seemed to be a bit difficult and challenging, but after spending some time I got to know the importance of that hectic schedule. I got a lesson for life that made a huge contribution in molding me into the person that I am today. The Faculty and the Non-teaching Staff are always encouraging and supportive. ACP has well-maintained laboratories, wide range of events and competitions. Lastly, I want to thank each member of my ACP family for making my B.Pharm. Journey successful and memorable.

Mr. NIKEN PATEL

Assistant Manager, Procurement at Torrent pharmaceuticals Ltd

2010 Passed out

My 4 years in ACP passed by swiftly, immersing myself in the knowledge, patience, and top of all, management abilities necessary to compete in the real world of business. It gave me a platform to push myself and to understand the potential that was hidden inside me. These past 4 years not only helped me broaden the horizon of my knowledge in Pharmacy but also helped me discover more about myself. I cherish the memories that I had with my batch mates, especially my close friends. I would like to thank all the teachers and staff in our Institute who are still there and who were formerly working as well, for helping me adjust to every situation during my entire time spent in ACP.

I would like to end by quoting, "Don't let the noise of others opinions drown out your inner voice. And most importantly, dare to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary."

Ms. Meera Tadas

QC Analyst in Bell sons,London

2009 Passed out

I still vividly remember my first day in ACP at the threshold of a new phase of life and the first step into the world of pharmacy. Since that very day ACP has been home. The unflinching support and guidance of my teachers has helped mould my personality and make me an all rounded person. Of course the emphasis was on making us the best pharmacists possible but along with this also arming us with the confidence and knowledge to succeed in the real world. Thanks to the excellent teachers, infrastructure and a placement committee, we are truly fortunate and well-armed to enter the pharma world . In all my future endeavours be it pursuing a masters or in the industry I will truly be indebted to ACP for nurturing me these four years and all the memories, I have of this esteemed institution will be etched in my mind always.

Ms. Vandana Patodiya

QC Analyst, LIU Brooklyn, USA

2009 Passed out

It gives me great pleasure to be an alumni of this institution ACP. The four years of graduation life has taught me so much, much beyond the confines of the curriculum. Our extremely well trained and dedicated faculty not only thrive to make us technically sound but also concentrate in developing our all round personality, I was extremely honoured to receive the post of the Cultural Secretary of the college which taught me so much and made me a better individual. Team work, leadership skills, managing responsibilities, communication expertise came to us quite naturally by participating in various Paper and Poster Presentations which ACP strongly encourages. I am venturing out for Masters with all the positives that ACP has given me and I extend my gratitude to the entire faculty of ACP. Best Wshes!
