## 4.3.1 Institution frequently updates its IT facilities and provides sufficient bandwidth for Internet connection

### Wi-fi / LAN facility

Information technology is a section which deals with computer system and its utility for the benefit of students. Interested students enrolled in IT section who are interest in computer technology and computer applications. Institute frequently updates its Infrastructure facilities including WiFi. College has provided total of 111 computers. These computers are distributed to various sections / departments in the college. Specifically, computers are hand overed to Principal cabin, administrative office, faculties, Examination section, E-library and center store room. About 69 computers are arranged in computer room for UG and PG level students for their daily utilization. The institute has a structured LAN facility for the benefits of the students. Network is in 3 tier architecture comprising of the core, distribution and access. All the end users/workstations are connected through 100 base ports. All the LAN attached users are connecting to the Access Switch Based on the VLAN and Security policies associated to them as mentioned above. In order to access the internet from laptop, mobile devices, institute provides campus-wide seamless internet connectivity. All the Wi-Fi nodes are secured and are access controlled by the system administrator through the user IDs of the devices provided by IT department of college.

Speed of Internet: 100 Mbps

Institute frequently updates its Infrastructure facilities including Wi-Fi.
